IMMEDIATE

*Omnitrac EFP Shown with
Stacking Console*

GENERAL DESCRIPTION AND MAJOR FEATURES

The Omnitrac EFP Tabletop Model is equipped with Diazit's Exclusive Total Reproduction Ammonia control (TRAC) system and Sealed Ammonia Supply.

MAJOR FEATURES

A single dial dual range speed control can be switched from normal high speed range to a more flexible low speed range offering a wide latitude of speed adjustment for precision specialty intermediate capability. The machine is equipped with a glass printer cylinder, two automatic ammonia vapor pumps with two position ammonia vapor control, no warm-up, single on/off operation and a forward/reverse switch. A with all Omnitrac EFP models, the print exits the ammonia developer through a sealed dissipator chamber that drives ammonia from the developed print and evacuates it though Diazit's exclusive Ammonia Arrestor system. The ammonia supply bottle is equipped with a special cap that allows the ammonia to be changed without opening the ammonia bottle at the machine site.

OPTIONS & ACCESSORIES

The Omnitrac EFP model is designed for tabletop use incorporating an optional Feedboard, P/N 7016, or it will also fit the Omni Sling Stand, P/N 7012 and an optional roll Box with Paper Cutter, P/N 7013, is also available.

SERVICE CONSIDERATIONS

1 Year machine warranty plus 3 year developer case warranty
